

## DESIGN AS PER CEA/PGCIL TECHNICAL SPECIFICATION

MODEL NO: PT-2.1.160MM

### Technical Specifications:

- ✦ Universal clamp Suitable for **all size of conductor wire**.
- ✦ MATERIAL- **High strength polymer** with working temperature range.
- ✦ Between **-30deg to 100deg** Celsius.
- ✦ Swing and **360 degree rotation** of warning disk for higher visibility.
- ✦ **Rubber contact** between wire and clamp.
- ✦ All metal parts are corrosion resistance work **efficiently under all climatic Conditions**.
- ✦ Weight less than **400gms**.
- ✦ Warning disk diameter **160mm±5** with total surface area approx. **20,000mm.sq** including air vents.
- ✦ Thickness of warning disk **5mm±2** with Special chemical additive.
- ✦ Which glows in dark with **multicolored retro reflective tape**.
- ✦ Total Retro refractive area on each **face 5,000mm.sq approx.**
- ✦ Total Glow in dark area on each **face +10,000mm.sq approx.**
- ✦ Height from wire contact point **Less than 430mm**.
